

Volunteers Needed for Research Study on Race, Class, and Healthcare in Inflammatory Bowel Disease (IBD).

Have you been diagnosed with inflammatory bowel disease/ulcerative colitis/Crohn's? You may be eligible to participate in a study that seeks to document the experiences of IBD patients.

You May Qualify If You

- Are between 18 and 75 years old
- Have IBD, ulcerative colitis, or Crohn's

Potential Benefits

Participating in this study will shed light on the experiences IBD patients have with their medical community.

Participation Involves

- 30min-1 hour in-depth interview
- Interviews will be conducted via zoom or phone

Location: Remote
